You have been referred for the PAML pre-assessment. This pre-assessment is designed to be taken over the Internet from your home or office. The purpose of this pre-assessment is to help you and your mentor design your studies in preparation for demonstrating competence through the Principals of Management, Marketing, and Legal Foundations assessment (MLC1). After you complete this pre-assessment, the results will be sent to your mentor. Your mentor will contact you shortly thereafter to discuss the results.

This pre-assessment is a 29 item objective pre-assessment. You will have two hours to complete this pre-assessment. The questions are similar in style and context to those on the final assessment, which you will be taking in the future. There is no penalty for guessing, but you should consider the value of guessing when the results will be used to guide your academic planning.

It is recommended that you do not use outside resources (books, help from others, etc.) while you complete this pre-assessment. This will ensure that your evaluation is the best possible measure of your current competence. Please finish the pre-assessment in one sitting. If the online process is interrupted after you begin taking the pre-assessment, your final score can be adversely affected. Additionally, the system will close down if there is a period of inactivity of 30 minutes or more, potentially causing a loss of the work you have completed.
